A2 A Political Platform for GYG

Organization:	GYG Steering Committee
Resolution date:	05/19/2023
Agenda item:	2 Amendments to the Organisational Principles

Motion text

Add in line 34: "- a political platform"
Add in line 42: "The third pillar consists of the political platform which resembles the fundamental political consensus of GYG. It can be updated in Congress through amendments. A complete content review requires a process led by the SC. If at least two regional federations ask for a content review, the SC will propose it to the Congress. The SC can also initiate this process itself."

Reason

This was already planned to be proposed in the online congress in 2022 but in the end not discussed. It would create a place for the content work the working groups have already been doing and open policy oriented discussions inside of GYG.
